Mario Monroy Canizales

TEMPORIZADOR 555 Modo Monoestable

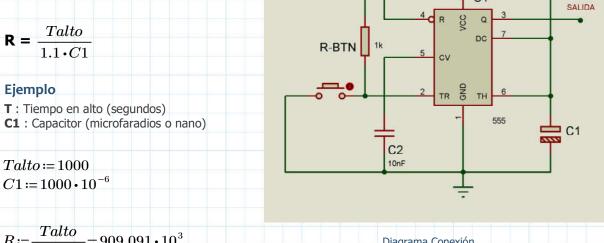

T alto = $1.1 \cdot R1 \cdot C1$

Formula calculo de Resistencia

$$\mathbf{R} = \frac{Talto}{1.1 \cdot C1}$$

$$Talto := 1000$$

 $C1 := 1000 \cdot 10^{-6}$

U1

$$R\!:=\!rac{Talto}{1.1\!\cdot\!C1}\!=\!909.091\!\cdot\!10^3$$
